9100/9605

CLASSIC STEEL

Sonoma panel, Custom finish, Stockbridge windows, Decorative hardware

style. safety. variety.

Built for performance and affordability, Models 9100 and 9605 offer robust features with a variety of options at affordable prices, adding style and curb appeal to your home.

These doors are chosen by homeowners for their insulating value, durability, style and safety features.

Ranch panel, Brown finish

PERFORMANCE FEATURES

TorqueMaster® Plus Counterbalance is the first counterbalance system to seal springs safely within a steel tube. It contains an anti-drop feature that reduces the risk of door free fall.

Tamper-Resistant Safety Bottom Brackets help avoid possible injury by preventing inadvertent loosening when the counterbalance cables are still under tension.

Pinch-Resistant Door Panels are engineered with pinch-resistant design to prevent finger injuries while the door is closing.

Structural Reinforcements
Model 9100 and 9605 are available with structural reinforcements for use in coastal regions. They meet wind load requirements of the International Building Code, Florida Building Code and Texas Dept. of Insurance.

Horizontal Integral Struts at the top and bottom of door sections adds rigidity and strength for long life and smooth operation.

Thermal Efficiency
Foamed in place polyurethane insulation** with an R-value* of 9 for Model 9100 and R-value of up to 10 for Model 9605. Insulation can improve your home's thermal efficiency, reduce street noise and make the door operate more quietly.

Warranty
Limited Lifetime Warranty against cracking or splitting due to rust-through and against degradation of the foam insulation. See full warranty for complete details.

*Wayne Dalton uses a calculated door section R-value for our insulated doors.

**Polyurethane insulation provides superior insulation value and thermal efficiency compared to polystyrene.

9100/9605 Model Comparison

	MODEL 9100	MODEL 9605
Door construction	3-layer construction Steel/Polyurethane/Toughgard™ backer	3-layer construction Steel/Polyurethane/Steel
Insulation	Foamed-in-place polyurethane with R-value of 9	Foamed-in-place polyurethane with R-value up to 10*
Wind load models	Available	Available
Warranty	Limited Lifetime	Limited Lifetime

*R-value of 9 for 7' tall doors; R-value of 10 for 8' tall doors.
